All powerful God, You are present in the whole universe and in the smallest of your creatures. You embrace with your tenderness all that exists. Pour out upon us the power of you love, that we may protect life and beauty. Fill us with peace, that we may live as brothers and sisters harming no one. Amen. Pope Francis.

Important periods in your life

When you enter your twenties, you chase a career that other people suggested, recommended, or imposed on you. You are doing other people's purpose.

When you finish your twenties, frustration and depression - sometimes illnesses - begin to set in because you feel you have no purpose in life. If you find the courage to break the bondage, you go to find your purpose. You discover your passion and follow your dreams for a while. You feel bliss because you feel you have found freedom. You are doing your purpose.

And one day, God touches your heart and you put all your dreams at His feet. When you lift your hands and say: "Jesus, I am yours. Everything I am, use all of me," you begin to do God's purpose for you. You are finally free."
